PROFESSIONAL SUMMARY

- Final-year Computer Science student focused on Software Testing (Manual + Automation using Playwright).
- Strong understanding of SDLC, STLC, Bug Life Cycle, and test case design with hands-on experience in web application testing.
- Experienced in functional, regression, smoke, and UI testing to ensure application quality.
- Detail-oriented with Skilled in writing automation scripts using Playwright (JavaScript) with locators and assertions.

EDUCATION

- Chitkara University, Computer Science Engineering 2022–2026

TECHNICAL SKILLS

Testing Skills: Manual Testing, Functional Testing, Non-Functional Testing, Bug Reporting, Bug Life Cycle

Automation Testing: Playwright (JavaScript), End-to-End Testing, Locators, Assertions

Development: HTML, Tailwind CSS, React.js, Node.js, MongoDB, Express.js, GitHub, VS Code

EXPERIENCE

- **Trainee – Software Testing**
Bebo Technologies, Chandigarh IT Park (Current)
 - Learning and applying manual and automation testing concepts in real-world scenarios
 - Writing and executing test cases and test scenarios for web applications
 - Performing UI and functional testing to ensure application quality and usability
 - Developing automation test scripts using Playwright with JavaScript

PROJECTS

- **CampusConnect – Event Management Platform**
 - Executed manual testing on core modules and user flows
 - Conducted regression testing and reported UI/functional bugs
 - Ensured data consistency between frontend and backend
- **YumList – Recipe Management Web Application**
 - Tested features like authentication, recipe creation, and item management
 - Designed and executed test cases for key user workflows
 - Identified and documented bugs with clear reproduction steps
- **Automation Testing Practice (Playwright – JavaScript)**
 - Automated test scenarios (login, forms, validations) on test automation practice
 - Used Playwright locators, waits, and assertions for stable scripts
 - Executed end-to-end testing of web application flows
